CVENT LINK: www.cvent.com/d/f4qg6m

Held in the beautiful and historical setting of Leigh Court, Bristol, this one day event brings together leading speakers in implant dentistry to discuss their experiences of building a successful dental implant practice with the support of leading dental implant provider Straumann. The event will cover and discuss a range of topics and include a break-out session in which delegates will get the opportunity to take part in hands-on sessions. Lunch and refreshments will also be provided to be enjoyed in this delightful venue.

9.00: **Registration & coffee**

9.30: **Jonathon Schofield – Perfect aesthetics**

A detailed look at how the surgeon, prosthodontist and technician must work together to deliver what the patient wants.

11.15: **Coffee**

11.30 **Steve Booth – The Straumann culture**

Philosophy, core beliefs and ethics. Plus an open forum for questions from clinicians

12.45: **Lunch**

Break-out session. Delegates will be divided into 4 groups at 4 tables and given the opportunity to ask questions and take part in some hands-on 45 minute sessions

Dave Furze - TABLE 1

Straumann Bone Level Tapered Implant - David Furze will present some cases where he has used Straumann's newest implant, the BLT. Delegates will see how the use of a tapered implant can benefit your treatment protocols.

Ross Cutts - TABLE 2

Straumann Pure Ceramic Implant and 4mm Roxolid Implant - Ross Cutts will show you how Straumann's new ceramic implant can benefit your patients and increase implant acceptance. He will also showcase Straumann's 4mm tissue level implant and how it can be integrated into your day to day treatment.

15.00: **Coffee**

Xabiner Egurbide - TABLE 3

Createch - Xabiner Egurbide has come over from Createch to show how the alliance with Straumann can produce high quality milled restorations for your patients.

Jon Phillips - TABLE 4

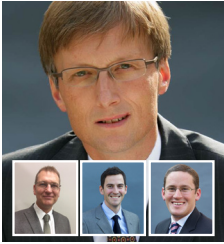

Variobase - Jon Phillips is an experienced dental technician, who will outline the different ways in which the variobase abutment can be used to get great aesthetic results at a very reasonable price.

16.45: **Finish**

South West Event 2014

Leigh Court, Bristol, 11th November 2014

Jonathon Schofield & Team (Timothy Harris, Colin Mcguirk & Colin Sykes)

Jonathon, the founder of The Dental Implant Clinic, graduated from Bristol University in 1986. He has over eighteen years of experience in the field of dental implantology. His training has been in the UK, Switzerland and Germany. His particular interests are implants in the cosmetic zone – making implants imperceptible from natural teeth. Jonathan lectures throughout the UK and internationally on dental implant matters. He is a part-time lecturer at Bristol University and a Fellow of the International Team of Implantologists (ITI), which is a group of academics and clinicians who are dedicated to research and teaching in implantology. Until 2007 he sat on the national committee of the A.D.I. (Association of Dental Implantology).

Ross Cutts

Having graduated from Guy's Hospital, Ross is a general dentist with special interests in advanced restorative procedures and dental implants. Ross began his implant journey at the Morrision Hospital, Swansea and has subsequently attended extensive higher education across the UK and Europe from some of the most highly regarded clinicians. Ross has also been awarded the highly regarded Diploma in Implant Dentistry from the Royal College of Surgeons, London – one of few to have gained this qualification. He works closely with the Straumann implant system – ensuring that he provides care scientifically proven to be long lasting for his patient's best interests. He is a committed member of the International Team for Implantology (ITI) – and is a Study Club Director and clinical mentor.

Dave Furze

David qualified from Cardiff in 2000 and joined the Royal Army Dental Corp where he achieved the rank of Major. He served in Germany, Brunei, Bosnia and all over the UK. He left the Army in 2006 and has since been based in private practice. David has quickly increased his implant exposure by working in Ilkley, London and Cornwall in implant referral practices. David is currently completing his MClinDent with Kings College London in Fixed and Removable Prosthodontics. He holds an Honorary Research contract at the Eastman Dental Institute. David has recently completed a month fellowship at the University of Berne, Switzerland, working alongside world-renowned implant surgeons. He has lectured both nationally and internationally on both the surgical and restorative aspects of implant dentistry.

Jon Phillips

Jon Phillips established Eastgate Dental Laboratory in 1989, initially to provide private laboratory work for dentists in West Wales. 25 years later, Eastgate is one of the most forward-thinking labs in Wales with clients all over the UK. With Jon overseeing all production, his team create highly aesthetic crown, bridge, and denture work with a major emphasis on Straumann CAD/CAM and the Straumann Implant System. Jon has been a Straumann Platinum technician for many years, is a member of the ITI and of the newly-formed South Wales ITI Study Group. He was part of Straumann's 'Ask A Technician' initiative. Jon is one of the most experienced Straumann implant technicians in Wales and his lab is rated amongst the top users of Straumann CAD/CAM in the UK.

Steve Booth

Steve Booth has been involved with the dental industry all his working life and has a background in dental technology. Since joining Straumann UK in 1997 as an area business manager, Steve has progressed from Head of UK sales in July 2003, to then join Straumann Canada in 2008 as Director of Sales before accepting a promotion to Managing Director of Straumann UK in 2009.

Xabier Egurbide

Xabier started his working life at the Massachusetts Water Resources Authority (Boston) working on the BIG DIG project. He has since worked as an International Research Executive at Millward Brown International (USA), before moving on to become Managing Director of Danobat Group India, manufacturers of high precision equipment for the aerospace and aeronautic industry. Xabier now works with Createch Medical and has been involved in the Straumann - Createch alignment and partnership.
