

Specialist Periodontal Service in Bath

Fernando Gonzalez Eriksson
Lic. Odont, MClinDent
Periodontology (UCL),
MPerio (RCS Ed.)

Fernando underwent his specialist training at the prestigious Eastman Dental institute. He works closely with our dental hygienist, Karen, who is experienced at treating advanced Periodontal disease.

His approach is to:

- Motivate your patient
- Treat the periodontal disease
- Help maintain periodontal health

Our commitment to you

- We will keep you informed about your patient
- We will only do the treatment referred for. Any change in treatment will be with your approval

Karen Morrison EDH

Services and fees

Shared long-term care

The long-term care of your patient's gums can be arranged in one of three ways.

1. The patient can be referred back to you for maintenance
2. The patient can continue their periodontal maintenance with us
3. We can alternate the periodontal maintenance between you and us

We treat and can give advice on failing implants
We can service all the major implant types
